# Hosted by Stoke Environment Group

We are a friendly community group of volunteers who are passionate about doing our bit for the environment and tackling the impacts of climate change.

We believe that making a lot of small changes can make a big difference by raising awareness of the things we can all do to help our environment, community and planet.

As well as the Envirofair 22, we have also organised other events including hedge planting, creating wider biodiversity in the spinney, a composting workshop, making planters for the bus stops, regular litter picking and improving footpaths.

For more information, or if you would like to join us please contact Fi McQueen on [envirostoke@yahoo.com](mailto:envirostoke@yahoo.com) or message us through our Facebook page 'Envirostoke'.

We are a 'not-for-profit' community group, and all donations are gratefully received to help us continue our work.
