

EXCITING ANNOUNCEMENT

STOKE ST GREGORY PC YOUTH PROJECT

After passing the criteria for the CIL application process, I am so pleased to announce that our Parish Council has ringfenced a fantastic £30,000 towards the Youth Project.

Whilst this seems a lot of money (because it is), in the grand scheme of things, it's a small amount when it comes to new equipment costs - not only to buy but to install and upkeep.

After several youth meetings the outcome was clear, the youth want more outdoor equipment such as;

BASKETBALL NETS
NEW FOOTBALL GOALS
HARDCORE SURFACE

& generally they just wanted more to do...

So, what's next?

We need to be working towards making this pot much bigger, this means applying for financial help through various grants and funding and even more fundraising!

For this to really work, I need YOUR help. I would like to put together a working group full of people that are just as passionate as I am about giving the young people more to do in the village.

Are you someone that would like to take this project forward with me? Are you someone who wants to help make this project a fantastic success that will benefit the whole village?

If that's a resounding YES to both questions then please get in touch via email: annemerritt@btinternet.com
